

Escape the colour cone

GameProgression

1. Groups of 4-6. Mark out cones in a small circle, 1 for each member and each cone must be a different colour.
 2. Each players starts on a cone. Give commands, right or left, all players must move in that direction and swap cones they are stood on.
 3. Then call out a colour. Person on that cone must 'escape' the others. They have 3 seconds to try and tag them. Reset and go again.
-
1. Have players organise this in own groups and rotate players out so that they call directions of movement and colours themselves.
